

# Sandblasted DOORGLASS

Exclusive Designs from Builders Hardware Inc.

The beauty of nature and artistry unites  
in this exquisite line of door glass.

---

Through the artistry of Julian and Karin Mesa, Builders Hardware offers a unique line of door glass inserts styled for Florida living.

Simply choose a design and then select the sandblasting style. Etched glass features traditional sandblasting. Carved glass unites sandblasting and additional carving in three-dimensional designs of unique beauty and texture.

All designs are available in full-light door glass inserts. Ask about custom configurations and other glass options.

*Ask about mirror image designs and configurations for double doors.*

## SANDBLASTING STYLES

*All designs are available in both etched and carved glass.  
Designs are sandblasted on the interior side of a doorglass insert.  
All image views are from the inside, looking outside.*

### ABOUT THE ARTISTS

Designers and fabricators of fine art glass, Julian and Karin Mesa each have 35 years of experience in the field of decorative architectural glass. They currently design and build all their custom art projects at their one-acre studio / display garden in Tarpon Springs, Florida. La Mancha Glass Gardens is both a multi-faceted workshop and inspiring garden gallery—an enjoyable destination for both past and prospective clients.

Since 1991 they have collaborated as partners on residential, corporate, and public commissions including an expanding line of etched and carved glass for Builders Hardware as well as any custom carved, etched, or stained glass project.
